Event Managed by: Blue Ginger Catering & Events LLC, Dubai

About GSMEEX

GSMEEX (Global Stocks, Multi-Assets & Commodities Exchange) is an upcoming and pioneering initiative from the UAE, developed over an eight-year strategic journey to create a next-generation global exchange platform. Designed to bridge international markets, GSMEEX aims to connect global capital, industries, and economies through an integrated and trusted financial ecosystem.

Market Impact & Non-oil Growth

Beyond Primary and Secondary Markets, GSMEEX is positioned to support at least 1% GDP growth in Non-Oil sectors across the Gulf and partner economies by strengthening domestic production and expanding export opportunities. The GSMEEX enables the global interconnection of Stock, Commodity, and Currency exchanges for strengthening global financial market integration and inclusion. This will expand access to global capital and reinforce the financial resilience of Gulf and partner economies.

Cross-border Collaboration & Global Access

At its core, GSMEEX is focused on enabling cross-border collaboration through bilateral partnerships, public-private partnerships (PPPs), and private sector trade and business. It will serve as a gateway for global companies to access multi-asset trading opportunities and drive high-growth expansion across the Gulf region. By offering a structured platform for international corporates, the exchange enhances visibility, credibility, and access to capital while facilitating meaningful engagement with government authorities, financial institutions, and trade partners across the GCC and globally.

Economic Diversification & Sector Integration

GSMEEX is to support Gulf non-oil economic diversification, aligned with regional and national visions. By connecting over 100 economies and integrating 30+ industry sectors, GSMEEX fosters innovation, investment, and the development of new value chains across traditional and emerging industries such as fintech, green energy, and digital trade. Through strategic partnerships, public-private collaborations, and institutional engagement, GSMEEX is positioned to catalyse large-scale trade, investment flows, and development projects.

A Foundational Pillar of Inclusive Growth

Beyond a traditional exchange, GSMEEX will act as a foundational pillar of connected economies, advancing a global movement toward inclusive growth by empowering industries, unlocking market access, and reinforcing long-term economic resilience. It stands as a forward-looking platform where global opportunities converge—creating value for investors, governments, and businesses alike.

About GSMEX Conference 2026

The GSMEX Conference 2026 is envisioned as a transformative global platform that brings together policymakers, industry leaders, financial institutions, and innovators to shape a more inclusive and resilient global economy. Anchored in the belief that sustainable growth must be shared, GSMEX aims to bridge economies, sectors, and markets through strategic collaboration and business excellence.

At the heart of this vision is the ambition to connect over 100 economies, creating a dynamic ecosystem where developed and emerging markets can engage on equal footing. By fostering cross-border dialogue and partnerships, the conference will enable knowledge exchange, investment flows, and equitable participation in global trade.

30+ Industry Sectors

The integration of 30+ industry sectors will ensure a holistic approach to economic development—linking traditional industries with emerging sectors such as fintech, green energy, and digital trade. This multi-sector convergence will unlock new value chains, promote innovation, and accelerate inclusive growth across regions.

Global Interconnection of Stock And Commodity Exchanges

A key pillar of GSMEX 2026 is the global interconnection of stock and commodity exchanges, strengthening financial market integration and improving access to capital. By facilitating dialogue among exchanges, regulators, and investors, the conference aims to enhance transparency, liquidity, and cross-border investment opportunities—critical drivers of economic expansion.

Bilateral And Multilateral Partnerships

The conference will also place strong emphasis on bilateral and multilateral partnerships, as well as public-private collaborations (PPP), to drive large-scale trade and infrastructure projects. These partnerships will act as catalysts for economic development, enabling nations to co-create solutions, reduce trade barriers, and build resilient supply chains.

Industry Empowerment

Industry empowerment remains central to the GSMEX agenda. By providing businesses—particularly SMEs and emerging enterprises—with access to global markets, financing, and strategic networks, the conference will foster entrepreneurship, competitiveness, and sustainable business practices.

Gulf Region Non-oil Diversification

In alignment with global economic priorities, GSMEX 2026 will highlight Gulf region non-oil diversification, supporting the transition toward knowledge-based and innovation-driven economies. By connecting global investors and industry leaders with opportunities in the region, the conference will contribute to long-term economic resilience and diversification strategies.

Through these integrated efforts, GSMEX Conference 2026 will not only facilitate dialogue but actively drive outcomes—positioning itself as a catalyst for inclusive prosperity, global trade expansion, and business excellence in an interconnected world.

We invite you to be part of this global movement—where ideas translate into partnerships, and partnerships into measurable impact. GSMEX 2026 offers a unique opportunity to connect with influential stakeholders, access new markets, and position your organisation at the forefront of global economic transformation. Join us to collaborate, innovate, and unlock the full potential of inclusive growth—while reaping the strategic, financial, and long-term rewards of being part of a truly global platform.

GSMEX Conference 2026

Vision & Mission

Vision

To create a globally connected and inclusive economic ecosystem that fosters shared prosperity and sustainable growth.

Mission

To connect economies, industries, and financial markets through collaboration, innovation, and strategic partnerships to drive inclusive global economic progress.

Strategic Themes

Connecting 100+ global economies through strategic dialogue and collaboration

Supporting Gulf region non-oil economic diversification

Integrating 30+ industry sectors across traditional and emerging markets

Strengthening global stock and commodity exchange connectivity

Advancing bilateral, multilateral, and public-private partnerships (PPP)

Promoting global trade, investment flows, and large-scale development projects

Empowering industries, SMEs, and emerging enterprises for global market access

Driving innovation and enhancing industry competitiveness

Key Outcome: Industry White Paper & Strategic Insights:

A comprehensive Industry White Paper covering 30+ sectors will be developed and published following the GSMEX 2026 Conference. This publication will capture strategic insights, policy recommendations, and innovative solutions shared by global leaders, financial institutions, investors, and industry experts representing over 100 countries.

The White Paper will serve as a high-level strategic reference document in the evolving global economic landscape, highlighting emerging trade trends, investment opportunities, and innovation-driven solutions. It will also provide actionable recommendations to strengthen international collaboration, enhance global trade and investment flows, and promote sustainable economic growth.

Key Milestones & Achievements

8+ Years of Leadership in Non-Oil Sector Diversification Initiatives

Successfully organised Business Fest across the UAE for 3 consecutive years (2017, 2018, 2019)

Delivered 5 Years of Global Gold Conventions (2019–2023), establishing a strong international platform

Connected 100+ Countries Globally, fostering cross-border collaboration and trade engagement

Integrated 30+ Industry Sectors into a global integrated trade flow system

Hosted 7 Years of High-Level Global Diplomatic Panels featuring Ministers, Government Officials, Ambassadors, Consuls General, and Diplomats

Facilitated 25+ G2B and Public-Private Partnership (PPP) Meetings, strengthening collaboration between governments and the private sector

Organised 100+ Business Workshops and Industrial Seminars, driving knowledge sharing and industry development

Enabled 10+ International Business MoUs, supporting strategic partnerships and global expansion

Conducted 100+ Industry Panel Discussions, promoting dialogue across key sectors

Arranged 100+ High-Value B2B Meetings with multinational corporations, enhancing business connectivity and opportunities

Major Participants of GSMEX Conference

Government Ministries, Regulatory Authorities & Policy Makers.

Embassies, Consulates and Diplomatic Missions

Sovereign Wealth Funds & Investment Authorities

Multilateral & International Organisations

Industry Leaders & Multinational Corporations

Mining Companies & Resource Producers

Commodity Producers, Traders & Exchanges

Banks, Financial Institutions & Trade Finance Providers

Investment Firms, Private Equity & Family Offices

Infrastructure Developers & Project Leaders

Technology, Fintech & Innovation Companies

SMEs, Startups & Industry Associations

Legal, Consulting & Advisory Firms

Chambers of Commerce & Trade Bodies

Academia, Think Tanks & Research Institutions

Media & Global Communication Platforms

Why GSMEX 2026 ?

GSMEX 2026 is more than a conference—it is a global platform for action. It enables high-level engagement, cross-border collaboration, and meaningful partnerships that translate dialogue into measurable outcomes.

Global networking with influential decision-makers

Opportunities to connect directly with senior government officials, industry leaders, investors, and global business executives, enabling meaningful relationships that can support future collaborations and growth.

Strategic investment and trade opportunities

Access to potential investors, trade partners, and cross-border business opportunities that can help organisations expand into new markets and strengthen international presence.

Cross-sector collaboration platforms

Engagement with leaders across more than 30 industries, creating opportunities to share knowledge, build partnerships, and develop innovative solutions across different sectors.
