## Global Project Concept & Lead:

**Sajith Kumar P K**

[sajithkumar.pk@ibmcglobal.com](mailto:sajithkumar.pk@ibmcglobal.com)

Mr. Sajith Kumar P K has over 20 years of international experience in various roles, including Economic Advisor for Trade & PPP Project Investments, Multi-National Corporate Advisor, Investment Manager, Chief of Compliance & Systems, Business Innovator & Strategist. He worked with Stock Exchanges, Commodities Exchanges and its Financial Intermediaries and Brokerage Houses internationally. Mr. Sajith Kumar has been formally designated to lead the upcoming Global Stock, Multi-Assets and Commodities Exchange (Gsmex) Project. He also serves as the Group CEO & MD of IBMC Global Financial Professionals Group.

Mr. Sajith Kumar has been widely honoured for his strategic leadership and contributions to global economic empowerment, receiving some of the Middle East's most prestigious awards. These include the Sheikh Khalifa Excellence Award (Professional Sector) from the Abu Dhabi Chamber of Commerce & Industry; the Sheikh Mohammed Bin Rashid Al Maktoum Business Award (Finance Category) from the Dubai Chamber of Commerce & Industry; and the Corporate Social Responsibility (CSR) Label Award from the Dubai Chamber of Commerce & Industry. These recognitions reflect his commitment to excellence, governance, and sustainable economic growth.

With extensive knowledge and expertise in International Compliance, Finance, Systems Architecture, and Business Strategy, Mr. Sajith successfully led an eight-year Gulf non-oil sector diversification initiative launched in 2017. This resulted in the implementation of the Industries Integrated International Trade-Flow System — an innovative and fully compliant global trade platform integrating more than 30 industry sectors and connecting markets across over 100 countries. The system empowers SMEs, corporates, and multinational enterprises across the Gulf region to expand and strengthen their global trade presence in evolving economic environments.

The platform currently operates as a Pre-Stock & Commodities Exchange infrastructure and serves as the pilot foundation for the launch of the first-of-its-kind Global Exchange for Stocks, Multi-Assets, and Commodities (GSME) from the GCC, designed to connect international markets across more than 100 countries.

Mr. Sajith's financial market innovations have been recognized by leading regulatory authorities and institutions, including the Securities and Commodities Authority (UAE), the Dubai Gold and Commodities Exchange (DGCX), the Dubai Multi Commodities Centre (DMCC), the United Nations Global Compact (UNGC), and various embassies and consulates. His pioneering initiatives include the introduction of a Client Segregated Bank Account system in association with Emirates NBD; the Emirates Investor Savings Plan to cultivate structured savings among investors; a Global Cash Management and Transfer System supporting extended trading operations; and the launch of a Stable Digital Asset Currency initiative backed by the American Eagle Gold Coin. He has also organized Global Gold Conventions for five consecutive years to strengthen international gold markets and played a key role in establishing a UAE-India IT-compliant Disaster Recovery (DR) infrastructure for DGCX markets, alongside initiatives aligned with the Sustainable Development Goals (SDGs).

Mr. Sajith brings deep experience working with Stock and Commodity Exchanges, Depository Participants, Insurance and international Financial brokerage firms, and financial institutions. He began his career at the Cochin Stock Exchange (CSE), India, where he held positions including Systems In-Charge for the operations of Inter-Connected Stock Exchange (ISE) at CSE, Software Programmer, and Regulatory & Departmental Coordination Lead reporting to the Board of Directors. His early foundation in exchange operations, compliance, and systems governance shaped his multidimensional expertise in global financial market infrastructure.

A respected thought leader, Mr. Sajith is a frequent speaker at international financial conferences, policy roundtables, and industry panels. He has served as Guest Lecturer and Project Leader for leading management institutions, including the Indian Institutes of Management (IIM), India. Since 2006, he has consistently provided global market insights and international financial reviews to international media and press, reinforcing his standing as a trusted voice in global finance.

## About Gsmex and Initiatives:

The visionary Economic Empowerment initiatives and vital role taking by GCC countries for connecting Gulf Economies between ASIA and EUROPE / ASIA and AFRICA through Sea, Rail and Airports, the global commercial markets players are eyes on Gulf Economies to make their valuable market share. Strengthening Bilateral, Multilateral and Private Trades in Non-oil Sectors by adapting various Comprehensive Economic Partnership Programme, the Global Exchange (GSMEX) will support companies to follow Trade, Investments and Business with the best International Compliance and practices. GSMEX will act as the backbone for International Commercial Trades.

GSMEX will provide Dual Listing facility to the global Listed Companies, which will enable their presence in Gulf with adequate Market Trust and Market Expertise. Dual Listing

credibility will make corporate to get attention from the Authorities/Economic Departments, Financial Institutions of six gulf countries to start their business at their respected countries by invitations. The corporate will get opportunities to select suitable place to start their business in Gulf with business incentives, discounts, facilities etc. Over and above, each Corporate will get attention from Trade and Investment Partners from gulf countries.

IBMC has created this unique opportunity for empowering Gulf Economies in Non-oil Sector Diversifications by engaging Global Economies. Economies and Corporate can join hands in Gsmex and avail 8 year long market and industry efforts which are created from UAE and connected with 100+ countries, integrated with 30+ Sectors along with International Organizations
